Section 1: Company and Product Identification

Product Name: Naphthalene
Product Code: 184500
Company: Colonial Metals, Inc.
Building 20
505 Blue Ball Road
Elkton, MD 21921 United States
Company Contact: EHS Director
Telephone Number: 410-398-7200
FAX Number: 410-398-2918
E-Mail: info@colonialmetals.com
Web Site: www.colonialmetals.com

Emergency Supplier Emergency Contacts & Phone Number
Response: Chemtrec: 800-424-9300
World Wide - Call COLLECT to U.S: 703-527-3887

Section 2: Hazards Identification

Hazard Pictograms:

Signal Word: Danger

Hazard Category:
Acute Tox, Inhalation Cat 1
Acute Tox, Oral Cat 4
Carcinogenicity Cat 2
Flammable Solids Cat 1
Hazard to aquatic environment, acute Cat 1
Hazard to aquatic environment, chronic Cat 1

Hazard Statements:
H228: FLAMMABLE SOLID
H302: HARMFUL IF SWALLOWED
H351: SUSPECTED OF CAUSING CANCER
H410: VERY TOXIC TO AQUATIC LIFE WITH LONG LASTING EFFECTS.

Precautionary Statements:
P201: Obtain special instructions before use
P202: Do not handle until all safety precautions have been read and understood
P210: Keep away from heat/sparks/open flames/hot surfaces – No smoking
P240: Ground/bond container and receiving equipment
P241: Use explosion-proof electrical/ventilating/lighting/equipment
P264: Wash skin thoroughly after handling
P270: Do not eat, drink or smoke when using this product
P273: Avoid release to the environment
P280: Wear protective gloves/protective clothing/eye protection/face protection
P301+312+330: IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell. Rinse Mouth.
P308+313: IF exposed or concerned: Get medical advice/attention
P370+378: In case of fire: Use dry sand, dry chemical, or alcohol resistant foam for extinguishment
P391: Collect spillage
P405: Store locked up
Hazards not otherwise classified:

None

Section 3: Composition / Information on Ingredients

Substances

Section 4: First Aid Measures

General Info: Consult a physician. Show this safety data sheet to the doctor in attendance. Move out of dangerous area.

If Ingested: If swallowed, do not induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Rinse mouth with water.

If Inhaled: Move person to fresh air. If not breathing, give artificial respiration. Consult a physician.

Eye contact: Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses if present and easy to do. Get medical attention immediately.

Skin contact: Take off immediately all contaminated clothing. Rinse with soap and water thoroughly. Wash before reuse, destroy contaminated shoes. Get medical advice if irritation develops or persists.

Additional Info: None

Section 5: Fire Fighting Measures

Extinguishing: Use water spray, alcohol resistant foam, dry chemical, or carbon dioxide.

Method / Equipment:

Special Hazards: No data available

Advice for: Wear self-contained breathing apparatus for firefighting if necessary. Use water spray to cool firefighters: unopened containers.

Further Information: Use water spray to cool unopened containers.

Section 6: Accidental Release Measures

Personal precautions: Use personal protective equipment. Avoid dust formation. Avoid breathing vapours, mist, or protective equipment gas. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe and procedures: areas. Avoid breathing dust.

Environmental: Prevent further leakage or spillage if safe to do so. Avoid release to the environment. Keep out of

Precautions: water supplies and sewers. Discharge into the environment must be avoided.
Section 7: Handling and Storage

Safe Handling: Avoid contact with eyes and skin. Avoid dust formation and aerosols. Further processing of precautions: solid materials may result in the formation of combustible dust. The potential for combustible dust should be taken into consideration before additional processing occurs. Provide appropriate exhaust ventilation at places where dust is formed. Keep away from sources of ignition - No Smoking. Take measures to prevent build up of electrostatic charge.

Recommendations for storage: Keep container tightly closed in a dry and well-ventilated area.

Incompatibilities: No data available

Section 8: Exposure Control / Personal Protection

California permissible exposure limits for chemical contaminants (Title 8, Article 107)

Work Clothing: Complete suit protecting against chemicals, flame retardant antistatic protective clothing. The type of protective equipment must be selected according to the concentration and amount of dangerous substance at the specific workplace.

Eye/face protection: Wear safety glasses with side shields or goggles or face shield.

Skin Protection: Complete suit protecting against chemicals, flame retardant antistatic protective clothing. The type of protective equipment must be selected according to the concentration and amount of dangerous substance at the specific workplace.

Respiratory: Where risk assessment shows air-purifying respirators are appropriate use a full-face particle Protection: respirator.
Section 9: Physical and Chemical Properties

Appearance: Form: flakes, granules
Color: white
Odor: aromatic

Odor Threshold: No data available

pH: No data available

Melting Point / Freezing Point: 176 - 180 °F (80 - 82 °C) - lit.

Initial boiling point and boiling range: 424 °F 218 °C - lit.
Flash Point: 176 °F 80°C - closed cup

Evaporation rate: No data available

Flammability: No data available

Upper / lower flammability or explosive limits: Upper explosion limit: 5.9 % (V)
explosive limits: Lower explosion limit: 0.9 % (V)
Vapour pressure: 1.3 hPa (1.0 mmHg) at 53 °C (127.4 °F)
0.04 hPa (0.03 mmHg) at 25.0°C (77.0 °F)
Vapour density: No data available

Relative density: 1.085 g/cm3 at 24.7°C (76.5 °F)

Water solubility: 0.0308 g/l at 25°C (77 °F) - OECD Test Guideline 105 - slightly soluble

Partition coefficient: n-octanol/water: log Pow: 3.4 at 25°C (77 °F)
Auto-ignition temperature: 526°C (978.8 °F)

Decomposition temperature: No data available
Viscosity: 1.05 mm2/s at 81.5°C (178.7 °F)
Explosive properties: No data available
Oxidizing properties: No data available

Other safety information
Surface tension: 31.8 mN/m at 100.0°C (212.0 °F)

Section 10: Stability and Reactivity

Reactivity: No data available

Chemical stability: Stable under recommended storage conditions.

Possibility of hazardous reactions: No data available

Conditions to avoid: Heat, flames, and sparks
Incompatible materials: Strong oxidizing agents.
Hazardous decomposition Hazardous decomposition products formed under fire conditions - Carbon oxides products:
Section 11: Toxicological Information

**Acute Toxicity:** LD50 Oral - Rat - 490.0 mg/kg  
LC50 Inhalation - Rat male and female - 4 h - > 0.4 mg/l  
9OECD Test Guideline 403  
LD50 Dermal - Rabbit - 20,000 mg/kg  
No data available

**Skin corrosion / irritation**  
Skin - Rabbit  
Result: no skin irritation - 24 h

**Serious Eye damage / eye irritation**  
Eyes - Rabbit  
Result: Mild Eye irritation

**Respiratory or skin sensitisation**  
Maximisation Test - Guinea pig  
Result: Does not cause skin sensitisation  
(OECD Test Guideline 406)

**Germ cell mutagenicity**  
Ames test  
S. typhimurium  
Result: negative  
Rat - male  
Result: negative

**Carcinogenicity**  
Carcinogenicity - Rat - male and female - inhalation (vapour)  
Tumorogenic: Tumors at site or application  
IARC: 2B - Group 2B: Possibly carcinogenic to humans (Naphthalene)  
NTP: RAHC - Reasonable anticipated to be a human carcinogen (Naphthalene)  
OSHA: No component of this product present at levels greater than or equal to 0.1% is on OSHA's listed of regulated carcinogens.

**Reproductive toxicity:** No data available

**Specific target organ toxicity - single exposure:** No data available

**Specific target organ toxicity - repeated exposure:** No data available

**Aspiration hazard:** No data available

**Additional information:** Repeated dose toxicity: rat - male and female - Oral - NOAEL: 100 mg/kg - OECD Test Guideline 408  
Absorption into the body leads to the formation of methemoglobin which in sufficient concentration causes cyanosis. Onset may be delayed 2 to 4 hours or longer. Naphthalene is retinotoxic and systemic absorption of its vapors above 15ppm may result in cataracts, optic neuritis, corneal injury, eye irritation. Ingestion may provoke the following symptoms: hemolytic anemia, hemoglobinuria, nausea, headache, vomiting, gastrointestinal disturbance, convulsions, anemia, kidney injury, seizures, coma.

Section 12: Ecological Information

**Aquatic toxicity:** Fish  
flow-through test - LC50 - Fathead Minnow - 7.9 mg/l - 96.0 h  
NOEC - Other fish - 1.8 mg/l - 3.0 d  
LOEC - Other fish - 3.2 mg/l - 3.0 d  
Daphnia and other aquatic invertebrates  
EC50 - Water Flea -2.16mg/l - 48 h

**Persistence and degradability:** Biodegradability - aerobic - exposure time 28 d  
Result: 2& - not readily biodegradable.

**Bioaccumulative potential:** Fish 427 - 1,158
Mobility in soil: No data available.

Results of PBT and vPvB PBT/vPvB assessment not available as chemical safety assessment not required/not conducted.

Other adverse effects: An environmental hazard cannot be excluded in the event of unprofessional handling or disposal. Very toxic to aquatic life with long lasting effects.

Section 13: Disposal Information

Product disposal: Burn in a chemical incinerator equipped with an afterburner and scrubber but exert extra care in igniting as this material is highly flammable. Offer surplus and non-recyclable solutions to a licensed disposal company. Contact a licensed professional waste disposal service to dispose of this material.

Section 14: Transport Information

DOT: Proper Shipping Name
Naphthalene, crude
Hazard Class
4.1
UN Number
1334
Packing Group: III

IMO/IMDG: Proper Shipping Name
Naphthalene, crude
Hazard Class 4.1 UN Number: 1334 Packing Group: III
Reportable Quantity (RQ): 100 lbs Marine Pollutant: yes
Poison Inhalation Hazard: No

IATA: Proper Shipping Name
Naphthalene, crude
Hazard Class 4.1 UN Number: 1334 Packing Group: III

Section 15: Regulatory Information

SARA 302: No chemical in this material are subject to the reporting requirements of SARA Title III, Section 302.

SARA 313: The following components are subject to reporting levels established by SARA Title III, Section 313. Naphthalene CAS-No. 91-20-3 Revision Date 2007-03-01

SARA 311/312: Fire hazard, acute health hazard, chronic health hazard.
Massachusetts Right To Know Naphthalene CAS-No. 91-20-3 Revision Date 2007-03-01 Components:
Pennsylvania Right To Know Naphthalene CAS-No. 91-20-3 Revision Date 2007-03-01 Components:
New Jersey Right To Know Naphthalene CAS-No. 91-20-3 Revision Date 2007-03-01 Components:
California Prop. 65: WARNING! This product contains a chemical known to the State of California to cause cancer. Naphthalene CAS-No. 91-20-3 Revision Date 2007-03-01

Section 16: Other Information

Full text of H-statements referred to under sections 2 and 3.
Acute Tox. Acute toxicity
Aquatic Acute Acute aquatic toxicity
Aquatic Chronic Chronic aquatic toxicity
Carc. Carcinogenicity
Flam. Sol. Flammable solids
H228 Flammable solids
H302 Harmful if swallowed
H351 Suspected of causing cancer
H400 Very toxic to aquatic life
H410 Very toxic to aquatic life with long lasting effects

**Disclaimer:** In compliance with the OSHA Hazard communication Standard, 29 C.F.R 1910.1200, we are providing you with a Materials Safety Data Sheet (MSDS) for the hazardous material you are purchasing.

It is your responsibility to educate your employees on the safe use of the hazardous material. With this in mind, a copy should be forwarded to the supervisor of the user or to the user themselves, and copy should be retained in your files for future reference.

Colonial Metals, Inc. makes no presentation as to the accuracy of the information in the MSDS. The information is believed to be correct; however, you (the customer), should perform your own investigation and independent verification. If you resell the product, you are responsible to forward the information in the MSDS to your customer.

Colonial Metals, Inc.
